

PSA Adds Intelligent Video Software-Maker to Vendor Roster

May 10, 2006, WESTMINSTER, COLO. -- The PSA Network has added Arteco Vision Systems as an approved vendor. Arteco, based in Italy, entered the U.S. market in 2005 with its Arteco intelligent video solution.

“It would be a good solution for small-business owners who need to simultaneously monitor multiple locations, but can't afford staff to sit on site or at a bank of video screens, for example,” says PSA Director of Vendor Management and Education Jennifer Martin Anderson.
